

Abhishek Palapati

Los Angeles, CA | apalapati.com | palapat@usc.edu

EDUCATION

University of Southern California

Bachelor of Science in Biophysics

- GPA: 3.925/4.0

Los Angeles, CA

2025 - 2029

RESEARCH EXPERIENCE

Waksman Student Scholars Program, Rutgers University

Research Student

Piscataway, NJ

2021

- Cloned and sequenced cDNA from *Landoltia punctata* as part of a distributed genome annotation project
- Performed sequence assembly, quality trimming, and homology-based annotation to characterize two novel transcripts
- Deposited both annotated sequences in NCBI GenBank (accessions JZ985529.1, JZ985530.1)

EXPERIENCE

Partret

Co-Founder, CTO

Princeton, NJ

May 2026 - Present

- Architected an EMS platform for compliant electronic patient care (ePCR) reporting in Python; advised by Ari Meisel, Executive Director of Princeton First Aid and Rescue Squad
- Built LLM-powered call capture that transcribes live scene audio and populates a structured ePCR so charts are complete before the crew clears
- Developed the QA and operations layer with automated chart scoring with missing-field flagging for reviewers, crew scheduling with coverage gap detection, and agency-level analytics, built around HIPAA data handling requirements

CPR Certification Solutions

BLS Instructor

Princeton, NJ

July 2025 - Present

- Taught American Heart Association certification courses, including BLS and Heartsaver CPR/AED/First Aid, to healthcare providers and members of the public
- Educated hundreds of students across multiple training locations, tailoring instruction to learners with diverse backgrounds and experience levels from boy scouts to teachers to medical professionals
- Participated in events to provide CPR and first aid education to underserved communities, increasing access to lifesaving training through community outreach

Narberth Ambulance

Emergency Medical Technician

Ardmore, PA

October 2025 - September 2026

- Responded to 911 emergencies, providing rapid assessment, treatment, and transport of patients in accordance with Pennsylvania EMS protocols
- Performed patient assessments, obtained vital signs, administered approved interventions, and communicated critical findings to receiving facilities and medical control
- Collaborated with EMTs, paramedics, firefighters, law enforcement, and hospital staff to deliver safe, efficient, and compassionate prehospital care in high-acuity and high-stress environments

TECHNICAL SKILLS

Languages: Python, R, Javascript, React, HTML/CSS

Tools: Git/GitHub, command line, SQL, Docker, AWS

Familiar with: C, C++, MATLAB

CERTIFICATIONS

- Emergency Medical Technician (EMT) – National/NY/PA Certified
- Basic Life Support (BLS) – American Heart Association
- Basic Life Support Instructor (BLS-I) – American Heart Association
- Advanced Cardiovascular Life Support (ACLS) – American Heart Association
- Pediatric Advanced Life Support (PALS) – American Heart Association
- Medical Statistics – Stanford Center for Health Education, Stanford Medicine
